

Calco Cargo is a small, innovative freight handling and transportation company, offering our existing clients a safe and punctual delivery service for their vital goods throughout the world.

For the past 13 years we have been providing our loyal clients a personal service in the handling of their freight requirements.

We have always concentrated on providing a top quality and personal service to businesses that have used our services, as we are expanding our company we would like to offer you the opportunity to join our existing client base and to experience the quality of the service we have provided in the past and will continue to offer in the future.

We have a proven track record of success and immense experience of moving all sorts of goods to all parts of the world, using the contacts we have with airlines such as; SAA, Emirates, BA, Air France, KLM, Ethiad and many more.

Our existing clients are always challenging us to meet their expectations of Innovation. We have expanded into the competitive road haulage market and even into sea freight as that means of transport of goods have improved in speed and costs reductions. It appears from our competitors that we have managed to negotiate better than normal rates to offer our new and existing clients.

We have shown that we have continued to provide first class personal service to our clients and we intend to continue creating new innovations in the way we transport freight on behalf of our existing client base and to you, should you choose to join us.

**“We like to move it, move it”**

Yours faithfully  
Yolanda Butler
